

Vizient/AACN Nurse Residency Program (NRP) at St. Peter's Hospital

All new graduates accepting employment at St. Peter's Hospital are required to enter the Nurse Residency Program.

Why a Nurse Residency Program?

- Industry gold standard; supports a higher level of professionalism and leadership
- Emphasis on leadership, professional roles, and quality outcomes
- Built on an evidence-based curriculum that meets national residency accreditation standards
- A critical component of nursing excellence cited by Magnet reviewers

Requirements

- Bachelor of Science in Nursing preferred
- Successful completion of NCLEX (NYS RN License) prior to employment

For more information or to apply, visit www.sphp.com/employment and search for "Graduate Nurse" in current job openings.

Graduates of this 1-year Residency Program will:

- Gain clinical autonomy at the point of patient care
- Be able to incorporate research-based evidence into their practices to advance safe, high-quality nursing
- Strengthen their commitment to nursing as a career choice
- Increase competence and confidence in decision making
- Develop stronger leadership and critical thinking
- Develop growth, collaboration skills, and gain knowledge
- Obtain inter-professional team building skills.
